FlowSert

Your workforce is compliant. *Can you prove it in 60 seconds?*

BUILT FOR · HSE Managers · Operations Managers · Project Managers · Company Administrators · CEOs & Business Owners

Do you know which certificates expire next month — across every project, employee and freelancer?

Can you generate a full compliance pack for a client audit in under a minute?

When you mobilise someone tomorrow, how long does it take to confirm they're qualified?

If any of those took more than a few seconds to answer, **FlowSert was built for you.**

THE IMPACT OF FLOWSERT

30–50%	<10 min	100%	1 system
Less certificate admin workload	Audit prep, down from hours or days	Documented personnel visibility, always	Replaces fragmented spreadsheets & tools

WHAT FLOWSERT DOES

AI Certificate Setup — Instant Onboarding
Upload samples, AI reads and extracts everything — structure built in minutes, no manual entry.

AI Search Across Your Entire Workforce
Find the right person by certificate, location or availability — employees and freelancers.

AI-Generated Documents, On Demand
Compliance plan, competency matrix, certificate bundle — audit-ready in seconds, every time.

Workers Own Their Competency Profile
Each person keeps their own certificates current. Live oversight without the admin burden.

Expiry Alerts & Live Compliance Status
Automated alerts before certificates expire. Always know who's compliant and what's at risk.

Project-Level Compliance View
Assign workers to projects and instantly see qualification gaps before mobilisation.

> *"We went from spreadsheet chaos to full compliance oversight in under a week — and our team did it themselves."*
